

Accordion Book Assembly

Start by marking your 5 ½ X 28.5 inch strip of tag board at four-inch intervals (or every four inches) on both edges of the paper. There should be six marks on top and six on bottom when you are done.

Crease the tag board at each mark by lining the mark on top and bottom using a ruler and a folding.

Fold the paper on alternate sides to create the ACCORDION effect.

The cover is cut from book cover board and is 4½" wide X 5½" tall. It will be mounted on the front of the Accordion book and another cover of the same dimensions will be mounted on the back.
